FOREWARD

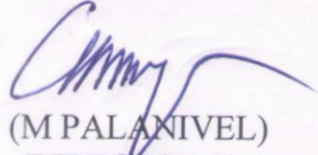

MSME-DI, Thrissur, as part of its activities has prepared the District Industrial Profile of Palakkad District during 2018 – 19. The objective of preparing the Industrial Profile of Palakkad District is to make the information readily available in respect of general characteristics of the district, administrative set up, industrial scenario, potential for new MSMEs, details of existing clusters and general issues raised by industry associations etc. to the existing as well as prospective entrepreneurs.

It is expected that this Industrial Profile will be useful for Governmental and Non-Governmental organizations, Promotional & Developmental Agencies engaged in promotion & Development of MSME sector in Palakkad District and also for academicians / research scholars.

I take this opportunity to express my gratitude to District Industries Centre, Palakkad, officials of State Planning Board, Economic and Statistics Department, Kerala, Department of Mines and Geology and heads of other departments for extending their co-operation in preparing this industrial Profile.

I also place on records my appreciation to Smt. Kathreenamma Sebastian, IES, Deputy Director, and Shri. K R Krishnakumar, Assistant Director (Stat.) of this Institute for their hard work in bringing out the report in this form.

30.04.2019
Thrissur

(M PALANIVEL)
DIRECTOR I/c.

District Map

Brief Industrial Profile of Palakkad District

1. General Characteristics of the District

Palakkad or Palghat is the land of Palmyrahs and Paddy fields. Along with Kuttanadu, Palakkad is a major Paddy growing area of the state. It is often called as the “Gateway of Kerala”. The district is bounded on the North by Malappuram District, in the East by Coimbatore district of Tamilnadu, in the south by Thrissur district and in the west by Thrissur and Malappuram districts.

1.1 Location & Geographical Area

Palakkad District came into existence as an administrative unit on the 1st January, 1957.

Presently Palakkad is the largest District in Kerala. Situated at the foot of the Western Ghats, this is the gateway to Kerala from North. It is bounded on the east by the Coimbatore District of Tamil Nadu, on the north and the north-west by Malappuram District and on the South by Thrissur District. It lies between 10° 20' and 11° 14' north latitude and between 76° 20' and 76° 54' east longitudes. The area of Palakkad District is 4480 sq.km. Palakkad is one among the five Districts in Kerala not having a sea coast. Palakkad District accounts for 11.21 per cent of the total area of the State.

1.2 Topography

The District is divided into two natural divisions viz. Midland and Highland based on the physical features. The Midland region consists of valleys and plains. The eastern region of this District has high mountains, extensive ravines and dense forests. The Western Ghat mountain ranges dominate the District. The entire area lies either in the Midland 8080 metres or in the Highland (above 80 meters). Land slopes up from West to North and North-East to South. The altitude varies between 15 meters in the west and 2500 meters in the north-east which contain high mountain peaks, long spurs, extensive dense forests and tangled jungles. While Ottappalam Taluk lies completely in the Midland region, all other Taluks in the District lie in the Midland and Highland regions.

1.3 Availability of Minerals

The land of the District is classified as undulating region (western part of the plateau), gorge region (central part of the land) and plain (at the foot of the Ghats). The following table shows the production of minerals in the district. The major mineral is granite building stone.

Table 1: Production of Minerals 2018-19

Sl No	Name of Mineral	Production in Tons
MAJOR MINERAL		
1	Lime Stone	96780
MINOR MINERAL		
1	Granite Building Stone	3779876
2	Ordinary Earth	355936
3	Laterite (building)	88621
4	Ordinary Earth	182683
5	Brick Clay	80550

Source: Department of Mines and Geology

1.4 Forest

The woods of the District can be classified as temperate forests, tropical wet evergreen forests (shola), tropical moist deciduous forests. Of these temperate forests are seen in the Silent Valley and in some blocks of Attappady reserves at an elevation of 1500 meters. The shola forests, characterised by the great luxuriance of vegetation having lofty trees of 46 meters often with plank buttresses at the base and shrubby undergrowth are found in higher areas of Attappady valley. The tropical moist deciduous forests grow in the plains upto 500 meters on westerly or southerly slopes of Chanet Nair Reserve, Puliampulli Reserve and the Kumrid slopes in Attappady block I and II.

The forest covers an area of 1628 sq.km including open forest also, which is 36.34 per cent of the total geographical area of the district. The forest of the district is spread over the north eastern portion of the district. The forest area of the district is administered by the Circle Office of the Forest Department at Olavakkode.

1.5 Administrative Set Up

There are two systems of administrative set up in the District – Revenue and Local Self Government. Under the revenue system a District is divided into Revenue Divisions, Taluks and Villages. However, for Local Administration, a District is divided into Statutory Towns and Panchayats. For the implementation of development activities Panchayats are grouped under Community Development Blocks. Therefore all these units viz. Taluks, Villages, Panchayats, Panchayat wards, Statutory Towns and Community Development Blocks have their own relevance and importance.

The District now consists of two Revenue Divisions of Ottappalam, comprising of Ottappalam, Pattambi and Mannarkad Taluks (67 Villages) and Palakkad, comprising of Palakkad, Chittur and Alathur Taluks (90 Villages). There are 6 Taluks and 157 Villages in the District. Under the Local Self Government System, the District is divided into 13 CD Blocks consisting of 88 Panchayats. Palakkad Municipality is one among the oldest Municipalities of the state have completed 130 years. Other Municipal towns are Cherplassery, Mannarkkad, Pattambi, Ottappalam, Shornur and Chittur Tathamangalam

2 District at a glance

The following table comprises the information about geographical, administrative, demographical, etc of the district. It will also provide brief idea education, land use pattern and infrastructural facilities of the district.

3.8.2 Major Exportable Item

Rice, Readymade Garments, Rubber, Mango, Coconut Oil, Value added products from jackfruits, handicrafts from forest resources, clay based pottery, food products

3.9 Service Enterprises

3.9.1 Potential Areas for Service Industry

Light Engineering, Food & Beverages, Ayurvedic & Herbal Products, Rubber Products, Textile Industry, Electrical & Electronics Components, IT Enabled Services, Tourism, Handloom Sector

3.10 Potential for New MSMEs

General Engineering, Plastic Recycling Unit, Rubber based units printing units, Steel Ignots, Wheat Powder, Coconut Oil & Other veg Oil extraction, Ayurvedic products

4 Existing Clusters of Micro and Small Enterprises

4.1 Details of Major Clusters

4.1.1 Manufacturing Sector

NIL

4.1.2 Service Sector

NIL

4.2 Details for Identified Clusters (as on 31.03.2019)

4.2.1 Name of the Cluster: AKCPMA Building Materials Manufacturing and trading P Ltd.

Principal Products manufactured in the Cluster	Cement based products
Name of SPV	AKCPMA Building Materials Manufacturing and trading P Ltd
No. of functional units in the Cluster	250 Units
Turn over of the Cluster	50 cores
Value of Exports from the clusters	
Employment in the cluster	1200
Average Investment in Plant and Machinery	12.5 cores
Testing Needs	
Presence of capable institutions	
Thrust Area	
Access to export market	
Problems / Constraints	Nonavailability of quality ordinary Portland cement. Wide fluctuation in prices of cement inventory related issues

Present Status: concept note forwarded for approval

5 General Issues raised by Industry Association during the Course of Meeting

Legislation regarding agricultural land conversion and environmental issues

Some parts of the district is classified as ecologically sensitive area.

Ecological problems will adversely affect the industrial growth in the district like changing the topography of land, utilization of large quantity of ground water, air pollution and water pollution.

Migration of skilled people to various other states of India as well as abroad.

Lack of entrepreneurship ends in the early closing of industries

Diminishing forest resources prevent the development of timber and related industries.

The ongoing development of Cochin and Mangalore ports will attract export oriented units to those areas.

The tendency of the people to invest in neighboring areas of the district especially in Tamil Nadu affects the growth negatively

In rural areas it is not possible to operate more than one shift, as the culture and facilities do not support working outside 9.00 AM – 5.00 PM in a day, whereas in neighbouring Coimbatore district, the turnover is high.

Harassment of trade union

6. Steps to Set up MSMEs

Table 9 Type of Assistance and Agencies
